

April 14, 2023

Dear Resident or Owner,

Please be advised that as part of construction on the təməsewtx<sup>w</sup> Aquatics and Community Centre, the City of New Westminster will be conducting work to locate underground utility services. This work is required to properly identify the location of underground storm and sewer services in advance of work that will take place this spring.

In order to complete this work, East Sixth Avenue between Cumberland Street and McBride Boulevard will be reduced to single-lane alternating traffic **on April 20, 21, 24, and 25, 2023, between 7:00 am and 3:00 pm**. A portion of Glenbrook Drive between East Sixth Avenue and Eddie Drive will also be closed to traffic and parking. All roads will reopen for normal use at the end of each workday. All cars parked in the closure areas must be moved by 7:00 am.

For a portion of this work, the greenway will be closed and cyclists will be required to share the road with vehicle traffic. Some sidewalk closures will also be required and pedestrians will be directed to use the sidewalk on the opposite side of the street. Traffic control personnel will be on site to assist the public in navigating the work site.

We will endeavor to minimize disruption as much as possible. However, as with a project of this nature, some disruption is inevitable. If special consideration is required, please contact the project managers listed below.

**Duration**

April 20, 21, 24, 25, 2023

**Hours of Work**

7:00 am – 3:00 pm

**Affected Roads**

Single-lane alternating traffic on East Sixth Avenue between Cumberland Street and McBride Boulevard during working hours.

**Impacts/Interruptions**

Expect temporary greenway and sidewalk closures, and traffic delays.

Full closure of Glenbrook Drive between East Sixth Avenue and Eddie Drive during working hours.

Some loud noise and vibrations related to construction equipment may also be experienced.

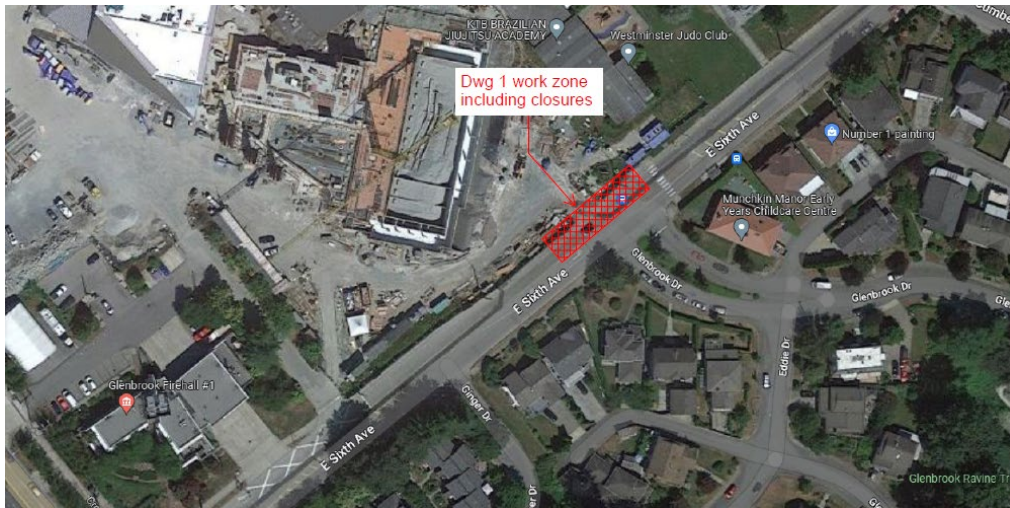

Thank you in advance for your patience and cooperation during this important work. Should you have any questions or concerns related to this work, please contact one of the following:
